PREFACE

The Accreditation Council of Trinidad and Tobago (ACTT) was established by Chapter 39:06 as the principal body in Trinidad and Tobago responsible for the quality assurance of higher education institutions, programmes and awards. In keeping with those responsibilities, ACTT is charged with a mandate to be the gatekeepers for quality assurance in tertiary education in Trinidad and Tobago.

ACTT created its Compendium of Accredited/Registered Institutions and Recognised Awarding Bodies in 2010 in response to a need to create greater awareness of what exists in the higher education sector. As a result, the second edition of this Compendium will further assist students and other stakeholders in making informed decisions when choosing an institution or programme which best meets their educational and career/professional goals. This publication is a more user-friendly compilation of recognised institutions and programmes which have met the standards established by ACTT for Registration, Recognition and Accreditation.

ACTT is committed to improving quality in the higher education sector locally as well as regionally. This Compendium will ensure that all stakeholders, including the Government of Trinidad and Tobago, possess current data to make informed choices and obtain maximum returns on their investment in education.

Michael Bradshaw

Executive Director

The Accreditation Council of Trinidad and Tobago (ACTT)

Message from Senator the Honourable Fazal Katrim Minister of Science Technology and Tertiary Education

The Government of the Republic of Trinidad and Tobago recognises that the development of our nation's human resource capital is paramount to sustainable development. As such, the Ministry of Science, Technology and Tertiary Education has made a commitment to enhance the local tertiary education and technical and vocational education and training (TVET) sectors in our quest to cultivate a more diversified, knowledge intensive economy.

As we position Trinidad and Tobago to respond appropriately to the rapid changes taking place in the global economic environment, the Government endorses the Accreditation Council of Trinidad and Tobago (ACTT) as it strives to "stimulate our knowledge economy by engendering global competitiveness in higher education". It is through vital agencies such as ACTT, that the Ministry has taken cautious and calculated steps to nurture a knowledgeable and dynamic talent pool qualified to thrive in today's competitive job market.

ACTT continues to demonstrate its leadership in the local higher education arena through a range of initiatives, including the signing of a Memorandum of Understanding with the National Training Agency (NTA), as well as the award of Institutional Accreditation to the College of Science, Technology and Applied Arts of Trinidad and Tobago (COSTAATT), The University of Trinidad and Tobago (UTT) and The University of the West Indies (UWI).

The publication of the second edition of the Compendium of Registered, Accredited, Recognised Institutions and Awarding Bodies and Programmes 2011-2012 is yet another illustration of this agency's commitment to serving the public and protecting the student's interest. This Compendium is designed to equip students with the necessary data to make informed decisions regarding their enrolment in higher education programmes. It incorporates all the positive changes that have taken place within the sector over the past year, providing the public with an updated snapshot of the tertiary education landscape.

I am confident that all stakeholders will welcome it as a valuable resource. It is therefore with great pleasure that I commend ACTT for providing this useful service that will aid in merging the post secondary education sector into a seamless and coherent system.

Senator the Honourable Fazal Karim
Minister
Science, Technology and Tertiary Education (STTE)

Chairman's Remarks

Adult learning is very broad and is a fundamental pillar of human development worldwide. The Government of the Republic of Trinidad and Tobago has re-emphasised the mandate for lifelong learning and increased student participation in higher education. It should be recognised that it is the trained and re-trained citizens who develop the capacity and analytical skills that would drive the local economy, support innovation, lead effective governments and make effective decisions. The higher education sector must continue to provide educational options for individuals who did not capitalise on earlier education and training opportunities, ensuring equity in access to higher education to both local and global citizens.

This compendium offers to the citizens of Trinidad and Tobago and students from around the world an array of programmes offered at registered and accredited institutions in Trinidad and Tobago. In anticipating future challenges where the composition of jobs and skills will change, students can choose from a range of programmes that align with new drivers of growth in sectors that do not exist today. This Compendium reflects the current higher education landscape of Trinidad and Tobago and provides information for those involved in strategic planning for the higher education system.

Students who are currently enrolled in programmes listed in this compendium are assured that these programmes are recognised by the Accreditation Council of Trinidad and Tobago (ACTT). All seventy-eight (78) institutions listed have been registered by ACTT. The College of Science, Technology and the Applied Arts of Trinidad and Tobago (COSTAATT), The University of Trinidad and Tobago (UTT) and The University of the West Indies (UWI), St. Augustine, have attained institutional accreditation status. Accreditation is a mark of excellence that earns the institution international recognition and respect in the higher education arena.

This *Compendium* spans both public and private post secondary and tertiary level institutions and their programmes which makes information on higher education more accessible to all citizens of Trinidad and Tobago. Since its establishment in 2004, ACTT has made every effort to ensure that higher education institutions in Trinidad and Tobago continue to meet international standards for quality. Specific emphasis has been placed on the quality assurance process at institutions, with the major goal of enhancing the teaching and learning process. This approach is congruent with the wider national goals of increasing transparency in the higher education system as well as contributing towards human capital development, that is, building skills for the knowledge economy. All of this is being done while promoting diversity among institutions.

ACTT is leading in the development of the National Qualifications and Credit Framework (NQCF) which would elucidate comparable levels between programmes at post secondary and tertiary level institutions. The NQCF will promote a student-centred approach to programme

development. The NQCF will also allow students to examine the content and teaching modalities (e.g. face-to-face, blended, distance) of programmes and determine their suitability for the workplace. More persons from different backgrounds with respect to age, gender, culture, educational and professional experience will now be able to participate in higher education. The NQCF is of even greater significance given the impact of globalisation and rapidly changing requirements for professional practice, which places greater pressures on post secondary and tertiary level institutions to produce graduates that are readily employable and demonstrate innovative thinking.

In the future, this *Compendium* will provide even greater levels of accountability to stakeholders with respect to the performance of post secondary and tertiary level institutions. Information on student enrolment, graduation rates and whether programmes are GATE approved will be included.

The publication of this volume, which is available in hardcopy and online, is as a result of many months of intensive and fruitful cooperation among ACTT, led by the Executive Director, Mr. Michael Bradshaw, post secondary and tertiary level institutions and awarding bodies. I thank the Minister of Science, Technology and Tertiary Education, Senator the Honourable Fazal Karim, for his continued support of the vision of ACTT.

Dr. Michael Dowlath

Chairman

The Accreditation Council of Trinidad and Tobago (ACTT)

INTRODUCTION

Empowered by Chapter 39:06, the Accreditation Council of Trinidad and Tobago (ACTT) was established as the principal body for quality assurance of post secondary and tertiary level institutions, programmes and awards in Trinidad and Tobago. To this end ACTT has developed a number of quality assurance services including: Conferment of Institutional Title, Registration of Post Secondary and Tertiary Level Institutions, Institutional Accreditation, Specialised Programme Accreditation, Recognition of Transnational Programmes, Recognition of Foreign and Local Awarding Bodies/Institutions and Programme Approval. Having implemented these services over the past five years, ACTT can now publish this *Compendium*, which provides authoritative information on registered and accredited institutions, recognised foreign awarding bodies/institutions and programmes.

Institutions that wish to offer post secondary and tertiary education in Trinidad and Tobago must register with ACTT. Registration determines the capacity of institutions to provide higher education based on international best practice. Registered institutions are permitted to offer programmes at levels declared at the time of registration. Institutions that wish to offer programmes at levels higher than originally declared must undergo further review by ACTT. In addition, any new programme must also be reviewed by ACTT.

Foreign programmes offered through collaborative arrangements with registered local institutions (referred to as *transnational programmes*) must be quality assured by ACTT. In reviewing these programmes, ACTT ensures that academic standards are maintained, comparable to programmes in the country of origin and that the programmes are relevant to the needs of Trinidad and Tobago.

Accreditation is used to evaluate the quality of higher education institutions and programmes in order to assure academic quality, improve accountability and support continual improvement. While accreditation is an international symbol of quality, it is only available to institutions that develop their own programmes. This process is voluntary and usually takes a number of years to complete.

This publication is a compilation of institutions, awarding bodies and programmes that have undergone ACTT's quality assurance processes and are registered, accredited or recognised. This publication also provides information on specialised programme accreditation. It must be noted that accreditation, registration and recognition status is awarded for a specific time period and may expire, be renewed or withdrawn. Users of this *Compendium* are advised that the information contained therein is based on data available and will be revised annually.

GLOSSARY

Accreditation	Accreditation is both a status and a process. Accredited status is bestowed upon an institution or programme that has met the minimum standards of educational quality set by a bona-fide accrediting agency or quality assurance agency such as ACTT. As a process, an institution engages in self study and external peer review. In Trinidad and Tobago accreditation is voluntary and only available to registered institutions involved in delivering locally developed programmes.
Association of MBAs (AMBA)	AMBA is a recognised quality assurance agency for postgraduate business education.
Awarding Body	An organisation or consortium that develops content and standards for educational programmes that lead to the award of qualifications in its name. Awarding bodies are not directly involved in the delivery of programmes.
Awarding Institution	A post secondary or tertiary level institution that awards degrees and other qualifications in its own name.
Caribbean Accreditation Authority for Education in Medicine and other Health Professions (CAAM-HP)	CAAM-HP is the legally constituted body by CARICOM for the accreditation of programmes in medicine, dentistry, veterinary studies and other health professions.
Council of Higher Education Accreditation (CHEA)	An association that recognises institutional and specialised accrediting bodies within the United States of America (USA).
Institute of Safety and Health (IOSH)	IOSH is a recognised United Kingdom-based quality assurance agency for the accreditation of programmes in health and safety management.
Institution of Chemical Engineers (IChemE)	IChemE is a recognised United Kingdom-based quality assurance agency for the accreditation of programmes in chemical and process engineering.
Institution of Mechanical Engineers (IMechE)	IMechE is a recognised United Kingdom-based quality assurance agency for the accreditation of programmes in mechanical engineering.
Institutional Accreditation	The evaluation of a higher education institution to determine the effectiveness of its systems in consistently achieving internationally accepted quality educational outcomes.
Local Partner Institution	A post secondary or tertiary level institution that collaborates with a foreign institution to offer programmes.
Maritime Provinces Higher Education Commission (MPHEC)	MPHEC is the recognised quality assurance agency for post secondary education in the Maritime Provinces, Canada.

GLOSSARY

Middle States Commission on Higher Education (MSCHE)	MSCHE is the unit of the Middle States Association of Colleges and Schools that accredits degree-granting colleges and universities in the Middle States region of the United States of America (USA). MSCHE is a member of the Council of Higher Education Accreditation (CHEA).
National Accrediting Commission of Career Arts and Sciences (NACCAS)	NACCAS is a recognised quality assurance agency for institutional accreditation of post secondary schools and departments of cosmetology arts and sciences in the United States of America (USA). NACCAS is a member of the Council of Higher Education Accreditation (CHEA).
North Central Association of Colleges and Schools, Higher Learning Commission (NCA-HLC)	NCA-HLC accredits degree-granting post secondary educational institutions in the North Central region of the United States of America (USA). NCA-HLC is a member of the Council of Higher Education Accreditation (CHEA).
Office of Qualifications and Examinations Regulation (Ofqual)	Ofqual is the authorised agency for regulating qualifications, examinations and assessments in England and vocational qualifications in Northern Ireland.
Period of Accreditation	The period during which an institution or programme holds accredited status.
Period of Recognition	The period during which a local institution is approved to offer a programme.
Quality assurance	The systematic evaluation and monitoring of higher education institutions, programmes and services to ensure that international standards of quality are achieved and maintained.
Quality Assurance Agency for Higher Education (QAA)	QAA is a recognised quality agency for universities and colleges in the United Kingdom.
Recognition	The evaluation and approval of the quality of a foreign institution and its programmes by a recognised quality assurance agency.
Registration	A mandatory quality assurance process that a post secondary or tertiary institution must undergo before it can legally operate in Trinidad and Tobago.
Royal Institute of Chartered Surveyors (RICS)	RICS is a recognised United Kingdom-based quality assurance agency for the accreditation of programmes in fields such as land, property, valuation, geomatics, and surveying.
Satellite Site	A division of a higher education institution which is involved only with the delivery of content of the education programmes and has limited administrative authority.

GLOSSARY

Specialised Accreditation	The evaluation of a post secondary or tertiary level programme to ensure that it meets the required standards of the respective profession. Such programmes are usually in fields that typically require a licence to practise, for example, engineering, nursing, dentistry, law and teaching.
Transnational Programme	A programme offered by a local partner institution in collaboration with a foreign awarding body/institution. Transnational programmes must undergo an evaluation process to be recognised in Trinidad and Tobago.
